CONVENTION HALL, SARATOGA. Sept. 26 .- With the air thick with con flicting rumors and the issue still very much in doubt, delegates and spectators began filing into the hall at Il o'clock. would get through with a rush and adjourn line die before 5 o'clock.

Our Chailenge to the A. P. A.

At 12 noon, the hour fixed for the resumption of business by the delegates should be the converting an assuring treasury. The resumption of business by the delegates should have been used to be such as the same strick up with the same and institute an

duce the price to the people of necessi-ties of life and encourage the promo-tion fo industry by cheapening the cost of many raw materials used in manufac-tures; and that by reduction in expendi-tures wherever possible, and by pro-vision for additional revenues, the legitimate demands upon the Federal Treasury will no longer exceed the Gov-ernment's income and necessitate an in-crease in the public debt.

Prosperity Returning.

"The beneficial effects of the adoption of these salutary measures of public policy are already plainly apparent. Each day gives evidence of returning prosperity. Millis closed by the offects of Republican legislation are reopening and their operatives are returning to work. Merchants report a largely increasing volume of business, and manufacturers are prepared for that period of prosperity which the readjustment of the tariff and cheaper raw materials certainly assure.

New Tariff Law Not Perfect.

"We concur with President Cleveland that the new Tariff law does not embody the full measure of tariff reform, but with him aiso we indorse its provisions for cheaper and free raw materials and lower taxes, as a substantial recognition of Democratic principles, and we bespeak for the law an impartial trial, confident that its successful operation will convince the people of the wisdom of Democratic policy and induce them to demand its proper extension.

Rest from Tariff Distarbance.

Rest from Tariff Disturbance.

"While favoring, therefore, such wise modification and readjustment of particular schedules, by the enactment of separate bills, as future conditions and the fulfilment of Democratic pledges may require, we deprecate, pending a fair trial of the law by actual operation, any further general tariff revision, which under present conditions would be likely to retard improvement in business, and thereby prolong the evils brought upon the country by Republican folly. Elections Law Repealed.

"We commend the enactment by the Democratic Congress other measures of public importance demanded by the people, particularly the repeal of the Federal Elections law and the stringent legislation for the suppression of Trusts.

"We reaffirm the declaration of principles contained in the Democratic National platform of 1892, and we reiterate the expressions of recent State Democratic platforms in favor of honest money, economy in public expense, just and liberal provision for all disabled Union soldiers, their widows and dependents, and strict adherence to the true principles of civil-service reform.

"We commend the efforts made by the Senators and Representatives in Congress from this State to avert the imposition of the present income tax, and we record our regret that the reform of the tariff, to which all Democrats were committed, was embarrassed by engrating on its provisions a direct tax, to which many Democrats were strenuously opposed.

Down with the Trusts:

Down with the Trusts! "We recognize in the Trusts and combinations, which are designed to enable capital to secure more than its just share of the joint product of capital and labor, a natural consequence of the prohibitive taxes which prevent the free competition which is the life of honest trade, but believe their worst evils can be abated by law, and we demand the rigid enforcement of the laws made to prevent and control them, together with such further legislation in restraint of their abuses as experience may show to be necessary.

President Cleveland Indorsed. "We heartily indorse the honest purpose and high ideals which have characterized the Administration of President Cleveland, and we renew to him the pledge of our earnest suport in all his efforts to secure the enactment of Democratic measures and the carrying out of Democratic policies. We have confidence that the people of the State, by their expression at the poils in November, will sustain his Administration, and by the re-election of Democratic Representatives in Congress show their appreciation of faithful service and their condemnation of that Republican incompetence which was responsible for the financial panic of 1833.

Republican State Record.

Republican State Record.

"The Republican record of control in this State is one of gross partisanship, inefficiency and hypocrisy. The party's return to power in both branches of the Legislature was marked by a legislative session barren of general legislation for the public benefit and unsurpassed in its manifestations of greed for political spoils and private plunder.

Treason to Cities' Home Rule. Treason to Citles Home Rule.

"Professing devotion to the principle of home rule, the Republican party prostituted the legislative power to political attacks upon Democratic cities, and passed bills legislating out of office nearly 1,500 Democrats appointed or elected by local authority, thereby outrageously interfering with local self-government and attempting to establish Republican minority rule in Democratic municipalities.

Republican minority rule in Democratic municipalities.

Alleging iniquities in Democratic State objects, it appointed committees with expensive counsel to ransack every department not occupied by Republicans, and has been obliged republicans, and has been obliged reluctantly to confess that there were no iniquities to expose.

"Hungry for political patronage, it was willing to jeopardize the annual Appropriation bill for the support of Government by insisting upon a 'rider' repuiring a Republican Attorney-General to appoint all counsel employed by Democratic State officers.

Falseness to Workingmen.

Falseness to Workingmen.

Rumor in this instance named Police lustice Thomas F Grady, the silverlongued, of New York, as the nominator. Sight on the heels of this came rumors by brigades, and it was impossible to keep track of them.

"No legislation desired by corporations was refused, but bills urged for the amelioration of labor were contemptuously rejected.

"Fretending devotion to economy, it increased the appropriations for State offices 35 per cent, during the first year of their control by Republicans, and through its Constitutional Convention has recommended to the people provisions which will, if made, greatly increase the cost of maintaining the State Government.

"In order to secure a low tax rate, it withheld necessary appropriations; reduced the appropriations for the promotion of agriculture for the canals and for the Labor Bureau denied further appropriations for preserving a record of the valorous deeds of our Union soldiers; refused money for improving the sanitary condition of the Capitol; post-poned until next year the payment of the extravagant expenses of more than twenty investigating committees; and mortgaged next yeer's tax levy by intentionally making unavailable, until tonally making unavailable, until synalted for charities, reformatories and quarantine.

"Professing to favor honest elections, the Republican party refused to put into legislation the recommendations of the

The Republican Gerrymander.

"Denouncing inconsistently as a Democratic gerrymander the last legislative apportionment, which was so far, nevertheless, that under it a Republican Legislature and Republican Constitutional Convention were chosen, the latter body, disregarding its high obligation, has devised and dares offer to the people a Republican gerrymander which makes outrageous discriminations against Democratic localities; denies the cities of the State fair representation; deprives the people of a nw enumeration and a new apportionment until 1955, and by these partisan devices seeks to rivet Republican control on the State for at least a decade, no matter how large the popular majority in opposition.

"Against such high-handed partisanship we protest and invite all good citizens to join with us in our effort to deliver the State from this proposed political bondage.

The Constitutional Convention.

The Constitutional Convention.

"We condemn the Republican Constitutional Convention for the rank partisanship which has characterized its proceedings; for its subserviency to corporate influences; for its contemptuous disregard of the interests of labor; for its refusal to grant to cities a larger measure of home rule; for the scandals which its acts have created, and for its conspicuous failure to satisfy public expectation by an intelligent and non-partisan revision of the Constitution, Democratic Principles Reiterated

Democratic Principles Reiterated.

"We reaffirm the principles contained in our State platforms of 1893 and preceding years. We believe in simple, honest and frugal government; individual liberty; genuine home rule for municipalities; elevation of sandards in the civil service; a revision of tax laws; an honest ballot and a fair count; the development of agriculture; the proper fostering of labor interests; the spread of education; all necessary public improvements, including the maintenance and development of the canals; the suppression of monopolies in the manufacture and sale of necessary articles of life, and the strictest accountability by every public officer.

No Sumptuary Legislation.

"We resolutely oppose all sumptuary legislation, which needlessly interferes with the personal liberty or reasonable customs of the people, and is now particularly threatened in the event of the election of the Republican candidates for Governor and Lieutenant-Governor.

As to the Excise Law.

"We believe in equitable excise legislation, which carefully regulates the sale of intoxicating liquors; prescribes just fees for licenses and preserves all needed restrictions for the maintenance of order and the good of society. Such legislation we believe, was incorporated in the present Excise law, passed by a Democratic Legislature and signed by a Democratic Governor, and we oppose any attempts to repeal it for the purpose of substituting in its place a sumptuary law, whose arbitrary and burdensome provisions are in needless restraint of individual liberty and are opposed to public sentiment and liberal public policy.

Legislation for Labor.

Legislation for Labor.

"We favor all just legislation in the interests of labor. We commend Gov.-Flower for his rigid enforcement of the laws to prevent the competition of convict labor with that of freemen. We favor such amendment of the so-called conspiracy laws as will make their provisions clear and easily understood, so that they may be intelligently obeyed and rendered impartial in their application.

Religious Intolerance Denounced Religious Intolerance Denounced.

"We denounce as contrary to the spirit of our institutions any display of religious intolerance in political discussion. We deplore any attempt to proscribe candidates for office on the ground of religious belief by secret organizations or otherwise. The Democratic party, which has always stood for political and religious freedom, does not hesitate to condemn all efforts to create a distinction among citizens because of differences in faith as unworthy of an enlightened age and abhorrent to the instincts of American freemen.

Praise for Gov. Flower.

"We unreservedly indorse the popular, honest and intelligent administration of Gov. Flower, and we record our expression of regret at his refusal to accept a renomination. His high character and conscientious purpose; his carnest devotion to the duties of his office; his keen interest in every phase of State administration; his decisive conduct in great emergencies; his resolute determination to secure the punishment of election offenders, and his manly, unaffected personal character have justly endeared him to the people of the State, and flave won their generous approbation. His close attention to public affairs has set a high standard for future Governors, and he will retire to private life at the conclusion of his term with the well-earned praise of the people of his party."

Excise Evidence Will Be Gathered by Policemen in Citizens' Press.

Supt. Byrnes has thrown down the rauntlet to the Police Commissi nd declared open war.

He will, he says, go ahead, regardless of any rules laid down by the Police Board, and will gather evidence against

saloon-keepers who habitually violate the Excise laws. He has, he declares, been hampered long enough by the rule which governs the collecting of evidence in such cases.

In an interview to-day Supt. Byrnes made the following statement:

"I propose to cut loose from everything that has heretofore prevented me from exercising what I have considered to be my pain duty in the enforcement of the Excise laws.

"The Police Commissioners, bd a resolution which I mentioned in my recent report to the Board, setting forth the reasons for the fallure of the Police Department to enforce a proper respect for the Excise law, hampered the Police Department to enforce a proper respect for the Excise law, hampered the Police Department by forbidding police officers from obtaining evidence against saloon-keepers while in citizens' clothes.

"I have, I think, waited a reasonable length of time for the Board to act upon my report, and now I have determined to exercise my own judgment, particularly in the matter of excise violations."

Mr. Byrnes was most emphatic in his statements.

Mr. Byrnes was most emphatic in his statements.

He would now, he said, get evidence in any way he could, regardless of the rules prescribed by the Police Board.

If it is necessary for a policeman to wear plain clothes to get evidence, plain clothes will be worn.

The Superintendent said that he had already begun the war upon the excise violators.

Asked if he proposed to enforce more rigidly the Excise law with regard to the Sunday traffic, the Superintendent said:

Excise violators. tramps, beggars, pickpockets and others who make light of law and order are being gathered in with a zeal that is unprecedented.

The immediate, moving cause for all this display of energy is said to be the strict injunction laid upon every inspector and captain several days ago by Supt. Byrnes that the law would have to be enforced, "let the chips fly where they may."

As a result of last night's police activity, the Tombs, Essex and Jefferson, Markets and Yorkville courts were fairly flooded this morning with salcon-keepers and bartenders, tramps and beggars, thieves and cut-throats and other law breakers, ranging almost along the whole gamut of crime.
